The authors made an error in Eq. (6), p. 2442, in our original paper.<sup>1</sup> The square root term,  $\sqrt{2(1 + \sigma)}$ , should have been in the numerator instead of in the denominator and thus should read

$$L_{T-B} = \frac{\pi\kappa\sqrt{2(1 + \sigma)}}{4}(2n + 1)^2, \quad n = 2, 4, 6, \dots \quad (1)$$
