

# B.S. Physics Education

## Notes:

1. Please visit the [teaching majors advisor](#) early to ask questions.
2. Some teaching students prefer to put in more effort and get the B.S. in Physics while completing the teaching courses needed to certify. Another option is to get the B.S. in Applied Physics, and select education classes as your emphasis. These options give them the option to teach, continue to graduate school or work in industry. It is not necessary to get a teaching degree to certify to teach.
3. Color code: **blue** = math, **orange** = lower level lecture, **purple** = lab, **yellow** = careers, **green** = education, **red** = other physics classes

Suggested semester:
